## GERMANY WILL RECEIVE ARMISTICE TERMS FROM FOCH

### BULLETIN

LONDON, Nov. 7.—The Daily News says it learns that the German delegation has reached the western front and been permitted to cross into the allied lines. The newspaper adds that the delegation will be received by Marshal Foch this morning at daylight.

MONTREAL, Nov. 6.—The Montreal Star this evening publishes the following dispatch from London: "Semi-official reports declare that Germany has decided to accept Foch's terms."

### BULLETIN

LONDON, Nov. 6.—The German armistice delegation has reached the allied lines. This information reached the lobby of the house of commons late tonight.

WASHINGTON, Nov. 6.—Armistice terms prepared for Germany by the supreme war council soon will be in the hands of German emissaries now on their way from Berlin to the western front but the time that must elapse before there is a decision as to their acceptance or rejection probably will depend largely upon the powers with which the German delegation has been clothed.

There is nothing here to indicate just what authority has been conferred upon the representatives of the German government. The official announcement from Berlin via London today said:

"A German delegation to conclude an armistice and take up peace negotiations has left for the western front," but the language employed may or may not be significant. Officials here have assumed that the German representatives after securing the terms from Marshal Foch will transmit them by telegraph or convey them personally to the German high command in the field, for it is understood to be the purpose in the present case, as was done with Austria, Bulgaria and Turkey, to deal with the armistice as purely a military issue between the military commands. Should this procedure be followed it is regarded here as probable that several days may elapse while the German general staff, now nominally at least subordinate to the civil government can consider the conditions laid down and reach a decision. There can be no argument as to the terms, no matter how harsh they may appear to the Germans. The only course left to Germany is to accept or reject them. Meantime, Marshal Foch is expected to continue the pressure on the Teutonic armies which now threatens their safety along a 200-mile front.

No announcement has been made when the terms of the armistice will be made public. Their publication very probably will be delayed until Germany has reached a decision with regard to their acceptance or rejection.

## Republicans Are Victorious Thruout Illinois Report Influenza Epidemic Better Thruout State

CHICAGO, Nov. 6.—The Republicans of Illinois elected a United States senator, twenty-two out of twenty-seven members of the national house of representatives, including two congressmen-at-large and their complete state ticket besides retaining control of the state legislature according to returns from ninety per cent of the state received up to the time tabulation closed at ten o'clock tonight. In the race for the United States senatorship, Congressman Medill McCormick defeated Senator James Hamilton Lewis, Democratic whip of the upper house. Returns from 2,906 precincts out of 3200 in the state outside of Cook county gave McCormick 287,202 and Lewis 198,907. Including Cook county where Lewis ran strongest, 5395 precincts out of 5681 gave McCormick 443,225 and Lewis 398,962, giving McCormick a plurality for the state of 44,337. In the contest for congressman-at-large, Richard Yates, former governor and William E. Mason, the incumbent, defeated W. E. Williams and Michael Cleary. Including Cook county, 4555 precincts out of 5681 gave Yates 347,994 and Mason 353,903. Williams 282,554, and Cleary 278,125. The Democrats elected the following congressmen: John W. Rainey, Adolph J. Sabath, James McAndrews, Henry T. Rainey and Thomas Gallagher. For the state legislature 83 Republicans and 53 Democrats were elected to house from the districts outside of Cook county with 17 contests still undetermined. The Cook county delegation will consist of 29 Republicans and 28 Democrats. In the upper house there will be 33 Republicans and 17 Democrats with the result of one contest undetermined.

In the fight for state treasurer 2033 precincts out of 3200 outside of Cook county gave Fred E. Sterling 208,629 and James J. Brady 123,572. A heavy affirmative vote was piled up for all the propositions on the "Little Ballot."

## AMERICANS GAIN GREAT VICTORIES IN THE MEUSE

### Yanks Cross River Within Six Miles of Sedan

WITH THE AMERICAN ARMY ON THE SEDAN FRONT, Nov. 6.—(By The Associated Press.)—6:20 p. m.—Its footing well established east of the Meuse the American army has forced its way along both banks of the river until tonight it is within six miles of Sedan.

With the fact that the Germans have put in fresh divisions the Americans and French continue their grim advance. Murvaux north of the Freya line and east of Dun, was reached this afternoon, and operations about the heights to the east of Sedan are well underway. The territory regained about Dun-Sur-Meuse, includes Lion-Dun, Dun, Fumay, Hill 204 and up to the edge of Cote St. Germain.

On the west of the river the army moved to the outskirts of Mouzon. Further west it fought its way along a line at Gogneux woods, Poiroux and Mont de Brune were among the villages captured. Raucourt was reached. The advance on Raucourt and Chemery was accomplished against machine gun fire. The Germans had entrenched themselves in every available shell hole supplemented by trenches, but were driven out with excessive use of artillery. It was an infantry engagement. The Germans giving way before the steady rushes of the Americans.

With the American forces on the Sedan front, Nov. 6.—7 p. m.—(By The Associated Press.)—The crossing of the river Meuse and the capture of the town of Dun by the Americans when its full details are known will rank as one of the most gallant feats of the war. The men knew almost as well as their commanders the difficulty of the task and realized how well-nigh impossible its accomplishment would be. Yet they never doubted or hesitated. The orders were to send over one brigade first and if it failed to send another and others, one after the other if it became necessary. It was with dash that the Americans tackled the problem. Theoretically they had the choice of crossing the river anywhere for five miles. Actually they were limited to one point, where two thirds of a mile of mud lay between the river itself and the canal that roughly parallels the river. The Germans were too firmly entrenched at all other spots. They had not protected themselves with trenches here only because they never dreamed that the Americans would be so daring as to try to negotiate the passage. This was a short distance north of Brioules.

All the swimmers of the first brigade were first singled out and put in the van. It was intended to attack in this way on the theory that the swimmers were less likely to be hit by the Germans owing to the fact that they would be nearly submerged. On the other hand they could carry with them ropes and other paraphernalia for assisting non-swimmers across. The building of pontoon bridges was put off until at least some American elements had crossed the river.

The order to cross the canal came at mid-afternoon Monday. The troops received their grim instructions under a sun which was shining for the first time in days. The men knew almost as well as their commanders the difficulty of the task and realized how well-nigh impossible its accomplishment would be. Yet they never doubted or hesitated. The orders were to send over one brigade first and if it failed to send another and others, one after the other if it became necessary. It was with dash that the Americans tackled the problem. ## WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

Deserted by all her former allies; her great military machine in the process of destruction by the onslaught of the entente allied armies; her dream of world domination rudely dissipated, Germany begs for a cessation of hostilities notwithstanding the hardships she knows she must pay. Scarcely had the decision of the supreme war council at Versailles with regard to a cessation of hostilities with Germany been made public than Germany was speeding emissaries to Foch to learn what the commander-in-chief's terms are to be.

Meantime in France and Flanders the enemy forces are being given no rest. Along the whole battle line in France, the British and American troops have made further material gains and reclaimed numerous towns and villages. Thousands more of Germans have been taken prisoner on all the sectors under attack. Generally the enemy forces are in slow retreat but nevertheless sharp resistance is being offered in some points they are particularly strong. The Americans in the Meuse river region and the French in the old Argonne sector.

The latest gains of the British on the western side of the battle front have been productive of the carrying of several towns of great importance the gaining of more territory east of the Scheldt canal, where the Canadians are on the attack and in the taking of several railway junctions of high strategic value.

Along the Meuse the Americans continue steadily to push forward and at last accounts were almost at the gates of Sedan, a dominating point on the German line of communication to the east. Both east and west of the river the Germans have materially stiffened their resistance against the men from overseas, using large numbers of machine guns and gas in great quantities in an endeavor to impede their progress.

To the west of the American sectors, the Germans near Rethel are holding a bridgehead to protect their retreating armies east and west. In doing so they are forming a dangerous salient in which capture is likely should the French break thru. Numerous additional crossings of the Aisne have been made by the French. Altogether the situation of the German army is a critical one.

## ALL PROPOSITIONS OF LITTLE BALLOT CARRY

People of Illinois Vote for Constitutional Convention, Good Roads and Banking Law Amendment.

Springfield, Ill., Nov. 6.—Governor Lowden was in telephonic communication today with headquarters of the constitutional convention, sixty million dollar bond issue for building good roads and the banking law amendment requiring private banks to become state banks, and was assured that each had been carried at Tuesday's election. The governor thereupon issued the following statement:

"The election returns upon the little ballot so far as the three state-wide propositions are concerned, are most gratifying. By their adoption Illinois has taken a long step towards preparation for the period following the war. This action of the people while it opens wide the door of opportunity for Illinois, imposes new obligations and responsibilities upon the officials of Illinois which they must make every effort to meet, if they would justify the confidence reposed in them by the overwhelming majorities in favor of the propositions.

"The electorate also assumes a new responsibility in selecting delegates to the constitutional convention. The people in each senatorial district should see to it that the two best men in their district be selected without reference to party lines and other considerations of party fitness for the re-convention. There is probably no other opportunity within the state for public service in which a man may exercise so large and lasting an influence for good as that which this convention affords. Illinois has the men, sufficient character wisdom and vision to frame the best possible constitution. Let the people see to it that these men are selected for this great service.

"Frank O. Lowden."

## G. O. P. TAKES CONTROL OF THE LOWER HOUSE

### Status of Senate Still In Doubt At Late Hour

WASHINGTON, Nov. 6.—With control of the house of representatives placed in the hands of the Republicans by a majority of sixteen and probably more, the attention of the country tonight was centered in contests in three states—Michigan, Idaho and New Mexico—which will decide whether the Democrats shall lose control of the senate as well. At midnight returns from five congressional districts were missing.

In Montana, New Mexico and South Dakota. Without them the Republicans have won 254 seats in the house of representatives, sixteen more than the 238 votes necessary for a majority. The Democrats on the face of these returns had 195 seats and if the five missing districts were to be conceded to them they still would lack eighteen votes to control the house.

Tonight's returns show plainly that Speaker Clark has been re-elected by a substantial majority. The contests which will decide the political complexion of the senate were very close. Without a decision in these contests there are forty-six Democrats and forty-seven Republicans. In Michigan the race between Henry Ford and Truman H. Newberry was so close that it was said an official count might be required. Both parties were claiming the seat. In New Mexico, where Republicans are claiming the election of Senator Fall, not a single county had reported complete returns.

In Idaho where 74,000 votes out of an estimated total of 95,000 had been counted Senator Newberry, the Democratic candidate for re-election, was leading Frank R. Gooding, the Republican candidate by a little more than 300 votes.

House Firmly in G. O. P. Hands. With the house firmly in the hands of the Republicans, control of the senate is more important than ever to the Democratic administration. If the administration can retain control of the senate it can check the activities of a Republican house. It is doubly important to the national administration because of the part which the constitution assigns to the senate in the ratification of the peace treaty.

The senate reposes the prerogative of ratifying any treaties which the president may make. Republicans made one of their campaign arguments on the contention that a Republican senate should be elected to participate in the work of making peace. The Democratic administration, on the other hand, contends that the negotiation of treaties is wholly the function of the executive branch and that the senate's part is to ratify them.

With the senatorial returns still missing from Michigan, Idaho and New Mexico, the figures showed the Republicans had lost one—that of Senator Weeks of Massachusetts—while the Democrats had lost six.

Many Changes to Be Made. The political overturning which takes from the Democrats control of the house of representatives foreshadows an upheaval in the legislative affairs, in nature and in power of the committee chairmanships and a situation confronting President Wilson which is a measure parallel to that confronting President Taft in the midst of his administration. The situation also analogous to that faced by President Cleveland at the beginning of his first term. Since by the system of committee control which prevails in the house, all legislation and the virtually unlimited powers for investigation of government affairs lies within the initiative and control of the majority the possibilities are obvious. They will be increased if the final returns for the senate assure the Republicans control there.

First, comes the question of the speakership, a place which many statesmen and politicians have declared is second only to the presidency in importance. Representative Mann of Illinois, the Republican leader, would on the basis of his position be the logical candidate of the majority but that is complicated by several factors, one of which has been Mr. Mann's continued ill-health. There also are some factional differences to be considered. Representative Claff of Massachusetts actually Mr. Mann's senior in point of service has been active Republican leader and is to be reckoned with in the calculations for the speakership. There has been some talk of Daniel Lonsworth of Ohio, Colonel Roosevelt's son-in-law as a candidate upon whom the

publicans could unite. Next in importance is the leadership of the Democrats when they become the minority party after March 3 next. As chairman of the way and means committee, Representative Kitchin of North Carolina now is the Democratic floor leader. He is expected to be supplanted in both places by Representative Joseph Forney of Michigan, one of the old Republican wheel horses upon whom will fall a very important part in carrying out with the treasury department the government's financial program for the remainder of the war. This will present a situation where a Republican house and probable senate, will be dealing with a Democratic secretary of the treasury on immediate financial questions in which they fundamentally may be in disagreement.

More Loans to Come. At least two more great Liberty Loans are to be provided for and none can estimate the need for further war taxation after the end of the fiscal year which the pending war revenue bill is framed to cover. Speaker Clark was minority leader before the Democrats came into control. A question to be decided is whether Mr. Kitchin is to step down from that place in the new congress or whether the speaker will be obliged to take places in the usual run of committee assignments.

The senate has several committees which have to investigate expenditures of the executive departments. During control of the Democratic majority the Republicans have been powerless to compel investigation of things which they have attacked. In control of those committees which in times of peace are virtually of no importance, the field for investigation of the Democratic investigation by a Republican house is thrown wide open almost on the eve of the next presidential election.

The Republicans do not come into their position of advantage until the meeting of the new congress, which will be the first Monday in December, 1919, unless President Wilson should call it in extra-ordinary session sooner.

The present Democratic congress expires by limitation March 3, 1919. Leaders of both parties rather believe the president will avoid an extra session if it is possible.

WASHINGTON, Nov. 6.—Despite peace prospects, "prices generally" throughout the United States are showing a tendency toward a further upward movement," according to the federal reserve board's monthly review today of business conditions as reported by agents in each federal reserve district. Increases are particularly noticeable in commodities over to the Democratic administration. If the administration can retain control of the senate it can check the activities of a Republican house. It is doubly important to the national administration because of the part which the constitution assigns to the senate in the ratification of the peace treaty.

## Think Austrian Armistice Terms Are Too Severe

COPENHAGEN, Nov. 6.—The German press considers the Austrian armistice conditions not only extraordinarily severe, but unjust and in violation of President Wilson's program. The Frankfort Gazette criticizes the release of prisoners and also the maintenance of the "hunger blockade" while the allies at the same time reserve freedom of action "to make requisitions on conquered land."

The newspaper expresses the hope that the allies will not try to impose similar conditions on Germany declaring that this would mean that all that had gone before "would be trifling compared with the horrors to come."

The semi-official North German Gazette referring to the lack of reciprocity as regards the release of prisoners says that history shows no such conditions since the days of the Athenian prisoners in the lead mines of Syracuse. The peace of Brest-Litovsk, it contends was admirable and humane compared with conditions of the Austrian armistice.

### COL. ROOSEVELT ISSUES STATEMENT

OYSTER Bay, N. Y., Nov. 6.—Colonel Theodore Roosevelt issued a statement tonight in which he declared that the Republicans had made their fight "on the unadmitted surrender issue" and as it appears we have a Republican congress the result "must be a case of profound thankfulness to loyal and far-sighted Americans."

Asserting that the victory serves notice on Germany that Foch will dictate the terms of armistice and that the terms of peace will be determined by all allies, the colonel continued:

"The Republicans will heartily support President Wilson in every effort to put forth our whole strength and efficiency in the war and to secure a peace that will guarantee the result of the war."

"I regard the result as much more a victory for straight Americanism than Republicanism."

## HEAVY FIGHTING AROUND WALLS OF LE QUESNAY

### Many Prisoners Taken By Allied Forces

WITH THE ALLIED ARMIES IN FRANCE AND BELGIUM. Tuesday, Nov. 5.—(By The Associated Press.)—Fighting yesterday centered around the walled town of LeQuesnoy and in and about the great Mormal forest a stronghold of the enemy. Early in the day the British pushed their lines forward on either side of LeQuesnoy and it was plainly seen that its fall was a matter of only a few hours. In order to avoid fighting the place the British during the forenoon sent an airplane message to the defenders, demanding their surrender. This message was ignored and the battle continued. Later it was reported that two captured German officers accompanied by two New Zealand officers entered LeQuesnoy and again demanded its capitulation but the garrison refused. When night came the Germans releasing the hopelessness of the situation surrendered. About a thousand of the enemy were taken prisoner.

Within the neighboring forest of Mormal the British pushed forward rapidly notwithstanding many machine gun nests. Several tanks were sent in with the infantry here fought a great action in mopping up batteries of rapid fire. By evening the British had worked half way thru the wood and this morning continued their advance. The town of Catillon, on the western side of the canal offered considerable resistance but the place was captured at an early hour. With this town as a foothold the British got some pontons across the canal. As the day wore on the enemy resistance weakened along the Mormal forest sector. The Germans had not expected an attack on such a big scale and were not prepared to withstand it. Landreies was protected by the canal and a flooded area to the north and it was necessary to outflank the place. The Germans here fought stubbornly and there was considerable hand to hand work thru the streets. The first British army was opposed by seven German divisions. With two in reserve along the Valenciennes sector and the desperate condition in which some of these enemy units had fallen was startling. The total strength of the 11th reserve division, for example was only 211 rifles. One entire Eaden regiment was captured near Prescau. These troops had been sent in for a counter-attack which they carried out and then surrendered in a body.

One officer was most bitter in his denunciation of the Prussians specially General Ludendorff because regular army officers have been held back from the fighting line while civilian officers have been sent in to lead the men. He said: "Emperor William will have to go. We will have no more of that breed on the throne."

The forest of Mormal was the scene of an unusual event. As the British advanced 200 German infantrymen were seen marching in regular formation toward the east. Captives were streaming back to the prison cages today. Among them were many fresh faced youths of the 1920 class. The boys seem strong and healthy, Valenciennes is rapidly being cleaned up. The grim nature of the fighting in the outskirts of that city may be judged from the fact that more than 1,800 dead Germans have been buried there. This forenoon the enemy was offering comparatively little resistance. More than 13,000 prisoners and a large number of guns have been counted by the British this morning. From the French forces on the right came a report that 3,000 of the enemy had been taken there.

## OLD JACKSONVILLE

## Two Englishmen

By Ensley Moore  
(Member Illinois State Historical Society)

Most of our early settlers were Americans, generally from the south or New England, but there were some of foreign birth. Our earliest distinctive settlement of foreigners, in Morgan county, was of English people, but they were scattered later scattered all over this county, as originally divided—this including Cass and Scott. Some of these immigrants or their descendants had much of interest or value in their history. Among them was

**Jonathan Depledge.**

The writer has found a short sketch of Mr. Depledge in a publication about Morgan county, which was issued in 1872. The Old Jacksonville writer did not know Mr. Depledge, but his name is very familiar.

Jonathan Depledge was born in Yorkshire, England, in March, 1796, and in these days of conflict he is among those to be thought of, for he had a part in that of over hundred years ago.

Mr. Depledge was the third son of William and Sarah Depledge, and they had thirteen children.

Jonathan entered the British army, and was engaged under the "Iron Duke" in the battle of Waterloo. Soon after he was discharged and returned home. There he became yard-keeper, for twenty years, for Lord Fitz Williams, at W—

Depledge was married at the age of twenty years, to Miss Jane Robinson, of London, who survived only about two years.

He next married Miss Ann Miller, spending about twenty years with her, and they had one child.

In 1843 he came to New Orleans, with his daughter, soon to St. Louis, and thence to Jacksonville, or rather to a farm, he bought seven miles north of Jacksonville, which was his home for four years. He then went to Naples, and afterward to Merced.

Mr. Depledge was again married to Miss Elizabeth Gray, formerly of England in May, 1850. They were members of the Methodist Episcopal church.

Politically Mr. Depledge was a Republican and supporter of the Union. He was successful in business, being a farmer.

**Samuel Camm.**

Mr. Camm was born in Sheffield, Yorkshire, England, Jan. 24, 1807. He was the son of William and Mary Camm, of that

part of the county was transacting business in the city yesterday.

Mrs. J. B. Beekman of Pisgah helped swell the list of city callers yesterday.

Mr. and Mrs. Howard Zahn have arrived home from Flint, Michigan where they went for a 1919 model Buick car. The car is a fine one but will be hard to get soon as the works are busy on government orders.

H. H. Hausmeyer of the vicinity of Concord was an arrival in the city yesterday.

Nancy, Nov. 6.—The memory of the three first American soldiers to fall in France under the American flag was honored today, the anniversary of their deaths, by the government of Lorraine, where they fell.

The towns in the department of Meurthe-Moselle erected a monument in the village of Bathelemon, but the heavy bombardment the village is undergoing leaves it still evacuated.

## Unlike Topsy—Swift &amp; Company Has Not "Jest Grown"

Swift & Company, in fifty years of well ordered growth, has become one of the great national services because it has learned to do something for the American people which they needed to have done for them, in the way in which they preferred to have it done.

It has met each successive demand, in the changing conditions of national life, by getting good meat to increasing millions effectively, efficiently, economically, and expeditiously.

The Swift & Company packing plants, refrigerator cars, car routes, branch houses, organization, and personnel of today are the practical solutions, born of practical experience, to the food problems of a half a century.

Because of all of these elements working in correlation and unison, Swift & Company is able to supply more and better meat to more people than would have been possible otherwise, at a net profit per pound of meat so low (a fraction of a cent) that the consumer price is practically unaffected.

Strip away any portion of this vast, smooth-running human machine, and you make a large part of the meat supply uncertain, lose the benefit of half a century of fruitful experience, and scatter the intelligent energies of men who have devoted a life work toward meeting the needs of a nation in one vital field.

The booklet of preceding chapters in this story of the packing industry will be mailed on request to Swift & Company, Union Stock Yards, Chicago, Illinois.

## RETREATING HUNS BOMB DEFENSELESS TOWNS

Using Gas Shells and Devastating Belgium Villages, Says Reliable Eye Witness.

Washington, Nov. 6.—German forces in their retreat from Belgium are bombarding defenseless towns, using especially gas shells

and devastating the countryside, according to an eye-witness account made public today by the Belgian legation.

"The Belgian government has been informed," said the statement, "by a reliable eye-witness who follows closely the operations at the Belgian front that at the very moment that the German government has announced her protest against inhuman acts and while Germany offers to stop aerial bombard-

ments in the interest of the civil population of the occupied territory the Germans have bombarded the villages and towns which they were obliged to abandon during their retreat; they have used especially gas shells for this purpose. Indescribable heart-rending scenes have occurred, the unfortunate population having no gas masks or means of protection. A Belgian soldier entering Wychemme his home town, found his wife dying and his little daughter dead, victims of the poison gas and his home a heap of ruins. The country all around Ghent the rich and beautiful cultivated field and pastures, the picturesque villages of Hansbeke, Landeghem, Nevele, Lathem, Saint Martin, Tronchines, present a horrible sight of devastation and havoc. Not a church was spared from destruction.

Amongst the civilian population hiding in the cellars there have been a great many deaths from gas, 27 in the village of Hansbeke alone. A portion of the population who had fled from their homes during the fighting and bombardment found on their return mere ruins and debris—trees had been cut down, houses—ransacked, furniture smashed to pieces, fields devastated. From these facts one may appreciate how hypocritical are the humanitarian propositions and protestations of the German government.

The legation also made public a captured order of a Bavarian division commander as further evidence that the Germans are robbing and looting Belgium.

### GERMANY'S FINANCIAL POSITION DESPERATE

LONDON, Nov. 6.—(British Wireless Service).—Germany's financial position is desperate and rapidly approaching the breaking point. After she raised her eighth war loan her national debt, it is estimated, approached £6,000,000,000. It is assumed that since then it has reached £7,000,000,000. On June 23 last the reichstag adopted a vote of credit of 15,000,000 marks which it was then declared would raise Germany's war debt to 139,000,000 marks of nearly £7,000,000,000.

Assuming that the debt stands now at 142,000,000 marks, Germany has mortgaged, therefore, more than two fifths of her national wealth, estimated at £16,000,000,000.

### SILESIA NOW A CZECH STATE

Amsterdam, Nov. 6.—According to Vienna advices Silesia almost to the frontier has been placed under the administration of a German peoples council. Czech newspapers received today say that the Czech commander at Prague has ordered the Czech commanders in Silesia to regard Silesia as a Czech state.

### NEW RECORD IN SHIPBUILDING

Washington, Nov. 6.—American shipyards again established a new record in October by delivering 77 ships of 398,100 deadweight tons. The shipping board also received during the month two ships of 17,808 tons built for its account in Japan. October deliveries bring the total of completed ships since August 30, 1917 to 417 vessels of 2,793,510 deadweight tons. Of these, 2,386,835 have been delivered in the present year.

### READY FOR BIG GAME

Great Lakes, Ill., Nov. 6.—The Great Lakes Naval Training Station football team completed its hard training for the contest with Notre Dame with stiff scrimmage tonight. The sailors' eleven probably will play in New York Nov. 16, under the auspices of the War Welfare committee. It was announced following a request received from the east.

### ALLIES WARNED BY GERMANS

With the American Army in France, Nov. 6.—By The Associated Press.—In a wireless message yesterday addressed to the French and American commanders the Germans reminded the Allies that there were many civilians in the villages north of the Franco-American front and suggested that the artillerymen be notified of this fact.

None of the villages was named however. The message was signed by the German field commander.

## TO THE CITIZENS OF MORGAN COUNTY

The great drive for the United War Work Fund will be made from November 11 to 18. The quota for Morgan County is \$81,000. Our county has never failed to meet every obligation which the Government has placed upon us and we shall certainly go over the top once more this time. However, the amount is the largest war donation which we have ever been asked to raise at one time and a strong united effort will be necessary. Every one must do his duty and must realize that his duty will be more this time than ever before.

On behalf of all the organizations which are united in this campaign, the Y. M. C. A., the National Catholic War Council, the Y. W. C. A., the Jewish Welfare Board, the War Camp Community Service, the American Library Association, and the Salvation Army, we ask the people of our city and county:

1. To set aside next week for the work connected with this campaign. Ordinary duties and engagements should be set aside during that week so that we may devote ourselves unreservedly to the welfare of our boys at the front, in the camps, on the seas and wherever they may be. Let no one give the excuse that he has no time to give to this great cause.

2. Make your subscription as large as possible. It is evident that everybody must give more than he gave in the Red Cross drive last spring, in order to make the present campaign a success.

3. Consider the matter of your own subscription at once, so that when the solicitors call you will be ready to give them a definite answer. The influenza situation is causing complications in the plans for the campaign and therefore the duty resting on every individual to do his part without unnecessary delay or urging is imperative.

(Signed) THE UNITED WAR WORK CAMPAIGN COMMITTEE.  
C. H. Rammelkamp, Chairman.

### YANK AVIATORS IN DARING EXPLOIT

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Nov. 6.—By The Associated Press.—A daring exploit by two American aerial observers, Lieutenant William Erwin of Chicago, and Lieutenant Boom, the first named the only American observation ace, was revealed today when the advancing infantry came upon them holding off Germans with the machine guns of their airplane. The aviators and their machines were rescued. They were forced to land on the German side of the line owing to engine trouble. The landing was made near two machine gun nests which the American airmen silenced. Then they fought off their would-be captors thruout the night and were still defending themselves tenaciously near Stenay when the infantry advanced and found them.

Federal war agencies, which under present laws, would automatically go out of existence with the proclamation of peace, are said to include the war industry board, the fuel administration and possibly the war trade board.

The statement says:

"We progressed along the whole battle front today in spite of a heavy continuous rain. Sharp fighting has taken place at a number of points with German rear-guards and some hundreds of prisoners have been taken by us. On our right our troops pushing forward captured Cartignies and Marbaix. In the center driving the enemy from his hastily constructed defenses on the east bank of the Sambre we have crossed the river at Berlainmont and have captured Leval and Aulnoye, where we have taken prisoners. The important railway junction of Aulnoye is in our possession.

"Further north we have crossed the Avesnes-Bavay road east of Mormal forest and have reached the railway to the south and west of Bavay, where sharp fighting is taking place within a short distance of the town. On the left the Canadian troops are continuing their progress east of the Scheldt and have captured Baisieux and Quesvrehain."

### WASHINGTON, Nov. 6.

Troops of General Liggett's first American army now are fighting in the Bois du Fond de Limon, south of Sedan and have reached the line Floba, Maisoncelle and Chemery, General Pershing reports in his communique for this morning. The Germans are resisting with machine guns the advance of the Americans east of the Meuse.

The statement follows:

"Headquarters American Expeditionary Forces, Nov. 6, a. m.

"Between the Bar and the Meuse the first American army continued its advance northward where it was opposed by strong resistance. Our troops are in the Bois du Fond de Limon, whence the line extends thru the Flaba, Maisoncelle and Chemery.

"On the line of the Meuse which we now hold from the Bois de L'Hospice inclusive to Sassey, and on the height to the east of Milly, and thence to Dun-sur-Meuse, there was severe artillery and machine gun fighting during the night. Franco-American units, operating in the difficult terrain east of the Meuse against positions long held by the enemy on the front Sivy to the Bois LaGrange Montagne, were heavily engaged.

"During successful air contests yesterday afternoon three additional enemy planes were brought down. All our machines returned."

## What is Chiropractic

Chiropractic is a drugless health science of the cause of so-called Dis-ease (or lack of ease) and the art of adjusting the human spine when its segments are out of natural alignment, so that mental impulse can transmit naturally thru the nerves to provide normal health function to every organ and part of the body.

It is a system of adjusting that includes the use of nothing but the bare hands to locate a subluxated joint and effect its replacement to normal position.

It is the Chiropractor's theory that the great majority of all Dis-eases is due to mal-positioned vertebrae, this preventing the proper nerve impulse—relieving this pressure, or stoppage, by a correct adjustment, allows Nature its rightful work.

If you are one who has failed to find relief from suffering, I shall be glad to talk to you, and will tell you quickly and honestly if Chiropractic can benefit you.

## OFFICIAL INSTRUCTIONS FOR SENDING CHRISTMAS PACKAGES TO SOLDIERS

The following official and final instructions have been issued for the benefit of persons who have received or who expect to receive Christmas parcels from men in the American Expeditionary Forces in France, England or Italy. Any and all other instructions which have not been officially issued by the Red Cross should be disregarded.

Each man may receive one and only one Christmas package of standard size and approximately standard contents.

The special carton which is furnished by the Red Cross to each person receiving Christmas parcels from men in service overseas, is 3x4x9 inches in size and a total weight of the carton pack-

ed for shipment including weight of wrapper and twine must not exceed 3 pounds. An allowance of one ounce should be made in determining the weight of the carton, for weight of wrapper and twine.

The carton may be filled with any articles that fit in it and which are not barred by the post office department.

The following list of prohibited articles that fit in it and in connection with the packing of parcels should be carefully observed.

1. All spirituous, vinous, malted, fermented or other intoxicating liquors.
2. All kinds of poison and all articles and compositions containing poison.
3. Explosives of all kinds.
4. Inflammable materials, including mechanical, chemical or other devices or compositions which may ignite or explode.

Note: Under this classification would come cigarette lighters, etc.

6. Liquids or flammable articles, fragile and other admissible matter when not packed in accordance with the requirements of the Postal Laws and regulations.

7. All other articles which may kill, or in any wise hurt, harm or injure another or damage or deface or otherwise injure the mails or other property.

**About Packing**  
Nothing should go in a Christmas parcel which will not keep fresh from the time of packing until Christmas.

Dried fruits and other food products should be packed in small tin or wooden boxes, one quarter to one half pound in size. Hard candy, including chocolate would probably be safe in tin foil or heavy cardboard, but no soft chocolate or anything that could possibly be crushed should be used, as the remaining contents of the package might be spoiled thereby.

Send for sworn seven testimonials. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggists.—Adv.

Several dainties packed in oblong boxes holding each a quarter of a pound will provide a better variety for a packet than a quantity of a single confection. No liquids or articles packed in glass should be placed in the package.

For wrapping the gifts use a khaki colored handkerchief, twenty-seven inches square.

**Have it Inspected**  
When the carton is filled it should be taken to the inspection depot, arranged by the Red Cross for receiving, inspecting and shipping these parcels, at Red Cross headquarters.

The person sending the parcel issued shall then in the presence of the Red Cross inspector, attach stamps in the amount of 20 cents for parcel weighing over two pounds and up to three pounds. In the amount of 14 cents for parcel over one pound and up to two pounds, and 8 cents for one pound or less.

The Red Cross inspector will then affix to parcel official Red Cross inspection label properly signed and will take the parcel and the Red Cross being responsible for mailing same promptly.

(1). Any parcel containing articles barred by the post office department will be rejected by inspectors.

(2). Inspectors are required to remove any notes or messages, including written Christmas cards, checks, drafts, etc.

(4). No parcel can be accepted by the postoffice without the Christmas parcel label from the soldier overseas.

**WILL CANVASS**  
ELECTION RETURNS  
The canvass of election returns will begin in the office of County Clerk C. A. Boruff today. Mr. Boruff said yesterday that he expected to have three local justices of the peace take charge of the work, which will not be very extensive, and furthermore will not attract the usual amount of interest because there are no close contests.

In the table which appeared in the Journal yesterday giving the returns on legislative candidates an error in the county made Mayor Rodgers' total appear about 1100 less than should have been the case. The Morgan county totals for thirty precincts on legislative candidates show Jones 4,332, Rodgers 4,564, Frisch 4,670, Wanless 5,079.

## Your boy comes stumbling out of the battle-line—

He wants a place to rest, a place to get warm, a place to smoke and get a hot drink and hear somebody talk United States.

He sees a light ahead. It's a hut!

Do you think he cares whether that hut is run by the Knights of Columbus or the Y. M. C. A., Jewish Welfare Board or the Salvation Army? Not much! He knows what he wants and he knows that he'll get it—whatever uniform the folks inside happen to be wearing.

Your boy knows what real democracy means.

He's fighting to make it something bigger and better and finer than it ever was before. He's the world's greatest authority on democracy today. Take his word for it!

## Keep the hut fires burning!

A hut is your fighter's home over there. It is his store, his theatre, his church, his school and his club.

It is the place where he writes your letters.

It is the place where he reads his books and magazines, where he and his friends get around a piano and sing or listen to a phonograph.

It is the place where all the movies are given, and the concerts and the minstrel shows and vaudeville. Often it is the only place within reach that is dry and light and warm and clean.

A hut may be a shed or tent or a fine old chateau or a hotel. Sometimes, at the front, it's just a battered little shack—the only building left standing in town.

On the fighting line, it's just a board laid across two boxes with a sign nailed to a tree.

The sign doesn't matter—it's what the hut gives your fighter.

Back up these seven organizations without thought of race or creed, because your boy knows that he is always welcome everywhere, and he needs them all.

### Why you should give twice as much as you ever gave before!

The need is for a sum 70% greater than any gift ever asked for since the world began. The Government has fixed this sum at \$170,500,000.

By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved.

Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their:

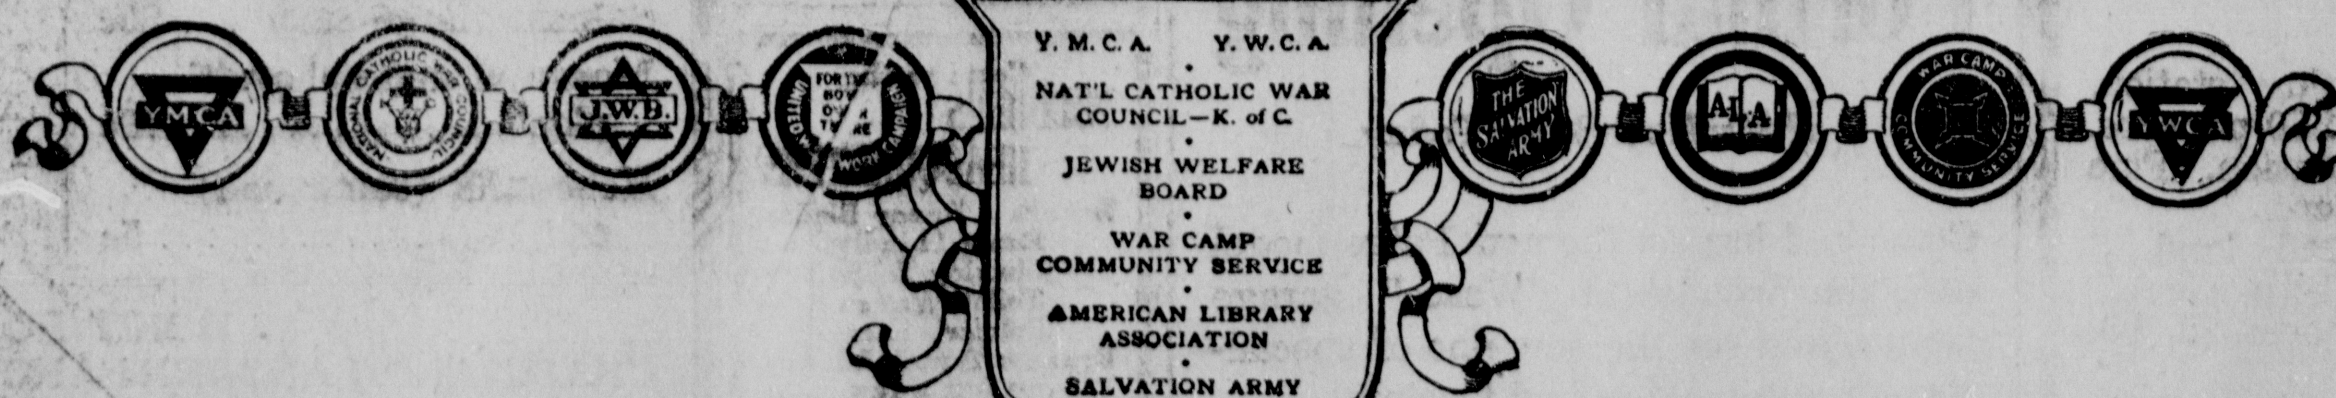

- 3600 Recreation Buildings
- 1000 Miles of Movie Film
- 100 Leading Stage Stars
- 2000 Athletic Directors
- 2500 Libraries supplying 5,000,000 books
- 85 Hostess Houses
- 15,000 Big-brother "secretaries"
- Millions of dollars of home comforts

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs.

Now give to maintain the Morale that is winning the war!

### CARDS FOR INFLUENZA

Because of the increase in the number of cases of influenza during recent days a well known resident of the city has suggested that it would be the course of wisdom to have houses where the disease exists placarded. This is the general rule with reference to contagious diseases and the point seems to be well taken that the end of the epidemic will come more quickly if there are strict quarantine restrictions and health department suggestions are adhered to in the most rigid way.

### CARD OF THANKS

We wish to express our sincere thanks to the many friends who have been of so much service to us in our time of sorrow occasioned by the death of Ralph Briggs. The spirit shown and the sympathy expressed will never be forgotten. John C. Briggs and Family. Mrs. James Harvey.

### BILLY BREEDING, THE CHIMNEY SWEEP, BACK

Billy Breeding, the well known chimney sweep, arrived in the city yesterday from Quincy, where he has been working the last few months. He expects to remain here for the coming winter, expecting a busy season. It will be well remembered that it was he who rescued the valuable trunk at the Colonial Inn fire last spring. Billy says chimneys should be kept clean on account of the inadequate fire protection in the city, as a large per cent of all fires start from defective flues.

### WAR WORK CAMPAIGN

#### IN CASS COUNTY

J. S. Findley returned last night from a two days' stay in Cass county, where he has been assisting the United War Work campaign committee in a campaign. Health conditions are such in Cass county that public meetings can be held and Mr. Findley visited eight towns in Cass county, including Arenzville, Beardstown, Virginia, Chandlerville, Ashland, Philadelphia and Little Indian. A great deal of interest was manifested at each meeting and the work is proceeding in a very satisfactory way. Mr. Findley went to Cass county to take the place of Sergt. Conroy, who has been ordered to Murphysboro.

### TWO MORE ELECTIONS IN SIGHT

Two more elections are to be held in Morgan county during the next few months, as a commissioner must be chosen to fill the vacancy caused by the death of David Wilson. The call for the primary election will probably be issued by C. A. Boruff, county clerk, before he goes out of office. Such an election requires sixty days' notice, so the earliest possible date will be some time in January. After the selection has been made at the primary a general election must be held. The new county officers will enter upon their duties Monday, Dec. 2. The law provides that the new terms shall begin the first Monday in December.
